Familyname

RALPH

Ralph Name Meaning

English: from Anglo-Norman and Middle English *Raulf Ralf* an Old French form of ancient Germanic *Radulf* (from *rād* 'counsel advice' + *wulf* 'wolf') hence the usual latinization of the name as *Radulfus*. *Ralph* was a common personal name among the Normans and from the mid 13th century among the native English. Almost 7% of men in the late 14th century were named *Ralph*. It was pronounced in a variety of ways giving rise to a large number of different surnames. *Ralf* could be shortened to *Raff* hence the surname [Raff](#) and possibly [Raffel](#). *Raulf* was sometimes shortened to *Raul* giving us [Rall](#) and [Rawlin](#) (see [Rawling](#)). It also appears as *Rauf* which was often shortened to *Rau* hence the surnames [Rawe](#) and [Rawkin](#) ('young Ralph') as well as [Haw Hawkins Daw](#) and [Dawkins](#) derived from rhyming pet forms. In late Middle English the diphthong *-au-* was sometimes simplified to long *-a-* later pronounced 'ay' as in modern English *day* which accounts for [Rafe](#). This pronunciation of the personal name *Ralph* is still occasionally found in modern times. *Ralph* is a learned spelling of *Ralf* that became common in the 16th century. In Anglo-Norman and Middle English usage the rarer personal name *Rolf* was sometimes confused with *Ralf* which explains why *Ralf* is an alternative source for [Rolf Rowe Dow](#) and their derivatives.
