MIGRATION MAPPING

Using data provided by the site owner, Type3
TNG sites can now map the migration of
individuals by surname.

THE MEMBERS' WEBSITE WIKI

Designed mainly for those using TNG. This is the place for all those
biographies, essays, charts, and graphs that just don't seem to "fit"
elsewhere.

The presentation is book like and lends itself to reading text easily without the
limitations of genealogy-based templates. Pictures, maps, and other media
can be embedded with the text for a professional look.

SEARCH TNG

Now it is possible to search all of the TNG sites
at once for surnames you are interested in.
